## The Promise of Medical Education

**MICHIGAN STATE**  
UNIVERSITY

College of Human Medicine

Many qualified potential applicants to MSU College of Human Medicine come from economic backgrounds where debt of the magnitude they will incur is far beyond what they or their families could ever manage, even to buy a house. From the perspective of such applicants, the financial risk of going to medical school is great. Scholarships lessen that risk and schools with many scholarships to offer can attract the best students regardless of economic background.

The College of Human Medicine needs to offer significantly more scholarships in order to compete for the students who would be ideal for our program.

Annual Scholarship  
Awarded

**\$533,000/yr**

*(approximate figure)*

### 2012-2013 CHM Tuition

In-State Non-Resident  
*(Tuition over 4 years)*

2012 CHM Graduate  
Average Debt =  
**\$219,269**

*By supporting scholarship funds, you not only lessen the financial burden to students, but also provide inspiration.*

**\$5,000 a year, for 4 years =**  
Supporting a Student's Journey  
through Medical Education
