

Medical School Student Scholarships

THANK YOU FROM MICHIGAN STATE UNIVERSITY COLLEGE OF HUMAN MEDICINE

It is my pleasure to share with you messages from five of Michigan State University College of Human Medicine's donor-supported students.

The words of these five medical students reflect the sentiments that scholarship recipients share with our office each year. Your gift truly makes a difference in these students' lives.

If you are interested in learning more about how you can help empower a future physician through student scholarships, please feel free to contact our office by phone, toll-free at 855-678-7444 or via email to lanes@msu.edu.

Sincerely,

Susan Lane
Senior Director of Advancement
College of Human Medicine

“The generosity of the MSU College of Human Medicine donors has helped me immensely on my path to becoming the first college graduate, and now, the first MD in my family. I will forever be grateful for the emotional and financial support I have received as I set out to begin my professional career in Ophthalmology. I look forward to carrying on the College of Human Medicine legacy in the future. Thank you and Go Green!”

*Joseph Boss
Fourth Year Student*

“The generous contribution made by my scholarship donor has relieved much of my financial stress and has allowed me to be able to focus on those things that are most important - my family and becoming a great physician. I can't thank them enough.”

*Skyler Johnson
Fourth Year Student*

“The scholarship awards have meaning far beyond the monetary value. They convey recognition and encouragement to students performing at the highest levels. We are inspired by the awards, and often set new standards for ourselves, above that which we have already done. Additionally, we are reminded that our efforts are not only meaningful to us, but also to the community of the College of Human Medicine, both locally and abroad.”

“For me, my scholarship awards have been not only a source of financial support to me, but also to my daughter. As the financial burden of medical school is lightened by the donors’ support, I have been able to redouble my focus on my studies and my daughter.”

Megan J. Cobb
Fourth Year Student

Scholarships... The Promise of Medical Education

For nearly 50 years, the Michigan State University College of Human Medicine has admitted dedicated students and graduated exceptional physicians. Few medical schools can match the College of Human Medicine’s history of innovative teaching and community service. Since 1964, the MSU College of Human Medicine has produced not just successful physicians but also responsible and engaged members of the communities in which they live and practice.

Our medical school must now reckon with an unprecedented series of challenges facing the medical profession. Led by an inventive and highly productive faculty, we have begun addressing this changing climate through bold curricular innovations and distinctive centers of excellence aimed at giving our students an edge—at equipping them to be our next generation of physician leaders across the globe.

Students are at the heart of our medical school. We will invest in faculty to improve the student experience and the quality of education, but scholarships and other forms of student support are our highest priority.

We are deeply grateful for your financial support through this endowment. Scholarships support students and mitigate the impact of debt on career choices for our future physicians. Through your endowed scholarship fund, you not only lessen the financial burden to students, but also provide inspiration.

“A medical career is not a life of servitude, but a life of gratitude. It is easy to become caught up in the daily rigors of medicine and become jaded by our limitations. Being awarded a scholarship, however, is an opportunity for me to step back and realize the family that I am privileged to be a part of and the multitude of people dedicated to my success. It reaffirms my abilities, inspires confidence, and reinforces a pledge to never forget those who came before me and invest in those who will come behind me.”

Roman Krivochenitser
Third Year Student

“This past spring I was the proud recipient of the Charles E. Luttenton Radiology Achievement scholarship. Being a scholarship recipient means that someone has recognized my accomplishments and is willing to invest in my future and in their community. With the scholarship, I was able to pay for all my residency applications, and I used the remaining money to travel to residency interviews. Scholarships not only help students pay for their tuition, books, and medical supplies now, but will help to improve their futures five, ten and twenty years from now by reducing overall debt. I thank you all for your support and generosity which makes possible a dream for me and my fellow students.”
